

# SORRY I MISSED YOU!

## Let's Eliminate Nebraska Property Tax Together

 **Hello Neighbor,**

I'm a fellow Nebraskan who's deeply concerned about the rising burden of property taxes in our state.

I stopped by your home to chat briefly and hear your thoughts, but I'm sorry I missed you!

Across Nebraska, many homeowners have seen **three consecutive years of 20% increases** in county property valuations, **without any reduction in the mill levy**. That's a **72% compounded increase**, and a **serious strain on any family's budget**.

This growing financial pressure is causing **retirees and young families to leave Nebraska** for states with more affordable tax structures.

### **There's a Solution: The EPIC Option Petition**

I'm collecting signatures to support the **EPIC Option**, a constitutional amendment that would:

- **Eliminate** Nebraska's property, income, and inheritance taxes
- Fund all state, county, city, and school services through **sales and excise taxes**

If you're a **registered voter** and would like to sign the petition, or if you'd like more information, I'd be happy to return and visit with you personally.

 **Please feel free to call me:**

**Name:** \_\_\_\_\_

**Phone Number:** \_\_\_\_\_

Together, we can make Nebraska more affordable for everyone.

**Thank you!**
